

Words and Phrases

Raised Fist

Words and phrases are lining up in my head.
I'm catching my breath before I lay another verse on
the table.
I can't sleep in this bed, until I get the words out of
head.
And I try to embrace them all before I let myself get
carried away.
And I must say, a privilege like this doesn't come
every other day,
I have to thank all of you for the stay.

Mistakes and heartaches, deceiving fakes,
we do what it takes to protect ourselves from the
demons and the snakes.
Don't underestimate yourself.
You have the strength within, don't sit on the fucking
brake.

This is just a wake up call.
Don't think we know them all.
Perfect is not what I want you to be, it's just not me,
it's just not me.

From spring to hard frost, I'm following you.
Even though the design of our life was broken into a
million pieces.
But let us sit down, use some glue and tell me the
fucking truth.

Mistakes and heartaches, deceiving fakes,
we do what it takes to protect ourselves from the
demons and the snakes.
Don't underestimate yourself.
You have the strength within, don't sit on the fucking
brake.
