

# Streetlights

Bonnie Raitt

I heard a voice come through on my telephone line  
Told me that it was your time  
I thought that they were fooling  
They were fooling me  
And then I remember having this dream of mine  
When it came down on me

I was told by a friend of mine  
That it don't matter if your dreams, they bother you  
Your dreams won't happen unless you only want them to  
So I asked him for a ride  
He said, "Hop on board, girl  
I been waitin' here for you"  
I thought I had nothin' left to lose

Where'd you say you'd be tonight  
Streetlights are all I see

All I wanted on that ride  
Was just a little kindness, a little kindness shown my  
way  
I found myself runnin' out of ideas on how to say  
It just got to be somethin' more than I could take  
But that summer somehow we were havin' fun  
Your magic took me by surprise

Where'd you say you'd be tonight  
Streetlights are all I see  
And now I know the feelin's right  
Yes I know the feelin's right  
'Cause just last night you came into my dreams

Yes you did, yes you did

I heard a voice come through on my telephone line  
Told me that it was your time  
I thought that they were fooling  
They were fooling me  
And then I remember having this dream of mine  
When it came down on me  
I said it came down on me—Oh

Where'd you say you'd be tonight  
Streetlights are all I see

And now I know the feelin's right  
'Cause just last night you came into my dreams

I heard a voice come through on my telephone line  
Told me that it was your time
