True Love Is Hard to Find

Bonnie Raitt

You said that your love was just for me That's why I've got to be yours You told me the day will never come When you would walk out and leave 'Cause you know that True love is hard to find 'Cause you know that True love is hard to find Everybody knows True love is hard to find Hard to find Very hard to find I say (true love) True love (true love) True love (true love) True love is hard to find You told me that you know I would have to travel all over You would take care of my business for me Darlin', all I ask of you Is to leave those business alone and save it just for me

True love is hard to find 'Cause you know that True love is hard to find Everybody knows True love is hard to find Hard to find Very hard to find I say (true love) True love (true love) True love is hard to find

Yes

And glory fills my heart with joy from heaven With love for you Darlin', I always think of you Always have my arms filled with love for you 'Cause you know that True love is hard to find 'Cause you know that True love is hard to find Everybody knows True love is hard to find Hard to find Very hard to find I say (true love) True love (true love) True love (true love) True love is hard to find Just because I know

True love is hard to find I believe in love True love is hard to find Everybody should know that True love is hard to find You know that True love is hard to find I say (true love) True love (true love) True love (true love) True love is hard to find Hard to find True love (true love) True love (true love) True love is hard to find
