

In the Streets

Rancid

Kristine with the wild grin, in the future with the world to end
You'll leave my heart broken then, one thousand times again
Kristine with the wild grin, in the future with the world to end
You'll leave my heart broken then, one thousand times again

The cops will come out when the sun goes down
From dawn to dusk while we give up the town
With the closest walk, they don't make a sound
Got the baddest of the bad aren't coming around

The street is wicked and it's wild and it's free
[?] fucker heresy
You don't, hit the top, man, where you want to be
It's a long way to go and it's a one way street

Kristine with the wild grin, in the future with the world to end
You'll leave my heart broken then, one thousand times again

You ain't got nothing when you born to lose
Your heart filled up with the filth and the booze
Standing on the street corner singing the blues
The end of the world is the popular tune

The city's hot but you cooled it off
The city block is another war zone
The city kids ain't got no home
Hit me a brick and we'll all get stoned

Kristine with the wild grin, in the future with the world to end
You'll leave my heart broken then, one thousand times again
Kristine with the wild grin, in the future with the world to end
You'll leave my heart broken then, one thousand times again

In the streets you're never alone
In the streets you're never alone
In the streets you're never alone
In the streets you're never alone
