

# Say Goodbye to Our Heroes

Rancid

Leather jacket, oh yeah  
Punk rock to the bone  
The ghost of chance is always gonna be with you  
Makeup on your face  
Spit all over the place  
Beyond the horizon, you know we will always hear you

We tip our hat to you  
And you know we'll see it through  
When we say goodbye to our heroes

Banging on the drum, yeah  
Bullet belt is on  
Distinguished in the way that you are spoken  
Whiskey on your breath  
Patches on your vest  
Love for you, you know it will never be spoken

We tip our hat to you  
And you know we'll see it through  
When we say goodbye to our heroes  
We tip our hat to you  
And you know we'll see it through  
When we say goodbye to our heroes

This song goes out to our punk rock heroes  
You see, the flame that burns twice as bright  
Burns half as long

We tip our hat to you  
And you know we'll see it through  
When we say goodbye to our heroes  
We tip our hat to you  
And you know we'll see it through  
When we say goodbye to our heroes
