Solidarity love and unity Set me free with a bullet and a gun

You said it was nothing
I knew it was something
It was no surprisin' i saw you cryin?

About you
Said what went wrong
About you
Said you can't go on
About you
Said it's a long time gone
About you
Said your life's too long

Solidarity love and unity Set me free with a bullet and a gun

Didn't see it coming Your fears went hunting 9 millimeter stops you running

About you
Now you're long time gone
About you
So what went wrong

Solidarity love and unity Set me free with a bullet and a gun
