

Here Comes The Night

Rare Earth

We've been lookin' at the sun so long
Seems our hearts just cannot see
We've been lookin' at the sun so long
That we're blinded by the way we used to be

Now some people say it wasn't true
And they wonder what we're gonna do
Hey, here comes the night
Armageddon is near
See the sun disappear when the day is done
Hey yeah

We've been searching for a better world
And we thought it passed this way
We've been searching for a better world
You say you saw it just the other day

Now you say you're searching just like me
And you wonder why we disagree
But look at, here comes the night
Armageddon is near
Here comes the night
See the sun disappear when the day is done
Soon our day is done
Soon our day is done
The song, the song of the blinding sun

Hey, hey, yeah
Here it comes

Thought I heard a baby cry
Well, I thought I heard my brother call
I thought I heard a baby cry
And no one seemed to care at all

Now you talk about the freedom we won
Well tell it to the man with the gun
Yeah

Here comes the night
Armageddon is near
Here comes the night
See the sun disappear when the day is done
Soon our day is done
Soon our day is done
The song, the song of the blinding sun
Hey, hey

Soon our day is done
Here comes the night
The song will be sung
Soon our day is done
Soon our day will be done
Soon our day is done
One day our freedom will be won
