

Someone To Love

Rare Earth

It's a long, hard road to follow to the end of your time
Not to love is means for sorrow, not to love is such a crime

Can you find someone to love forever?
Find someone to love just for tonight
Hang on, love's last ride, hang on tight

Take a trip above our highs, just lay back and close your eyes
The flash of pain is a own-
way fare, just your soul completely bare

Ease your mind of all that's held inside you
Find someone to love just for tonight
Hang on, love's last ride, hang on tight

Can you find someone to love forever

Find someone to love just for tonight
Hang on, love's last ride, hang on tight

Take a trip above our highs, just lay back and close your eyes
The flash of pain is a one-
way fare, just your soul completely bare

Can you find someone to love forever?
Find someone to love just for tonight
Ease your mind of all that's held inside you
Find someone to love just for tonight
Ease your mind of all that's held inside you
Find someone to love just for tonight
Ease your mind of all that's held inside you
