

# Would You Like To Come Along

Rare Earth

On our way down the road  
On our way out to nowhere  
Matters not where we go  
We just know we'll get there

I was wondering (if you've got the time)  
Would you like to come along?  
I was wondering (if my thoughts could somehow rhyme)  
Would you like to come along?

Where will we go from here?  
What are we going to do there?  
Some of us really care  
But whatever happens happens

I was wondering (if you've got the time)

Would you like to come along?  
I was wondering (if my thoughts could somehow rhyme)  
Would you like to come along?

Nobody knows the future  
How many times the bell rings  
Loving and joy and sorrow  
These are the things that life brings

I was wondering (if you've got the time)  
Would you like to come along?  
I was wondering (if my thoughts could somehow rhyme)  
Would you like to come along?
