

Don't Go Now

Ratcat

(S.DAY & R.St.Clare)

Well I've been looking around for feeling, some kind of sensation,

and you know i can feel it all inside.

I don't care baby where you've been,

and i don't care to see what your've seen.

Don't you know I will be dying to be by your side.

Don't go now, Don't go now, Don't go now.....

Well You can have my heart, & have my soul,
without you i feel cold.

Won't you come with me and i will make you happy.

And then when I'm alone, I dream of you,
til the day is done,

Don't you know I will be dying to be by your side.

Oh Don't go now, Don't go now, Don't go now....

I will love you, I will love you forever.

When you smile at me it makes me feel so happy.

And then when I'm alone, I dream of you,
til the day is done,

Don't you know I will be dying to be by your side.

Don't go now, Don't go now, Don't go now

I Wanna live, I Wanna live, I Wanna live with You til i Die !!!
