

You Always Win

Raul Malo

Whenever the game is played you rain on my parade
Darlin' you, you always win
And still I apologize all that twinkle in your eyes
Baby you, you always win

When lovers on high go strollin' by what am I to do?
They start whisperin' nothin's make me think about somethin'
Makin' sweet love to you

I know before we begin and all the results are in
Baby you, you always win

When lovers on high go strollin' by what am I to do?
They start whisperin' nothin's make me think about somethin'
Makin' sweet love to you

I know before we begin and all the results are in
Baby you, you always win
Baby you, you always win, always win
You always win, always win
You always win, always win
You always win
