

Cherry Blossom

Raury

I was going crazy, over you
Hold my cup out, like a fool
But I want, anymore
Cause I just, can't afford

But you can call me
You can call me, anytime
Say you can call me
You can call me
If this world gets too wild

All my friends and family
Try to feed
Didn't save none, none for me
Now my heart and my core
Will not starve, anymore

But you can call me, anytime
You can call me
If this world gets too wild
You can call me, anytime
You can call me
If this world gets too wild

I got love to give you
Even while, I'm just keeping to myself
Cause the pain, was too much
I just can't, be in love

But you can call me, anytime
You can call me
If this world gets too wild
You can call me, anytime, anytime
You can call me
If this world gets too wild
