It's not a problem with me if you wanna be
If you wanna go
It's not a problem with me if you wanna be
If you wanna go
But if it's not what it seems in the moment
Cease when the moment comes
And if you know what I need
It's the moment between you and us is just
Cause don't no one even need to know it
She's in the moment yeah
She's not a problem with me
If you wanna be if you wanna go
