

# Against The Grain

Raven

Like a fish out of water  
Just a man on the run  
Under starter's orders  
Long before you hear the gun

You think you're in with the in crowd (in with the in crowd)  
but you're out in the cold  
today you're giving the orders (giving the orders)  
tomorrow you'll be bought & sold

Take a good had look tell me what you see  
that's the difference between you & me  
you've changed but I've stayed the same  
you've compromised but I'm forever  
against the grain  
against the grain

Make the right impression  
squeeze into the mould  
twisted by obsession  
believe all you're told

Just take it all for granted (all for granted)  
but it's not what it seems  
the power lust that you've planted (lust that you've planted)  
will push you to the extreme

Take a good had look tell me what you see  
that's the difference between you & me  
you've changed but I've stayed the same  
you've compromised but I'm forever  
against the grain  
against the grain

You think you're in with the in crowd (in with the in crowd)  
but you're out in the cold  
today you're giving the orders (giving the orders)  
tomorrow you'll be bought & sold

Take a good had look tell me what you see  
that's the difference between you & me  
you've changed but I've stayed the same  
you've compromised but I'm forever - against the grain
