

## Hard Road

Raven

I still remember I still recall  
where I was when they started it all  
from hall to hotel the cast would change  
kept firing but were always out of range

Gonna take you by the hand  
gonna make you understand

Its a long hard road you gotta travel  
to get where you belong  
it's a long hard road but in the end  
it can only make you strong  
make you strong

The wind grew stronger the tide had turned  
we crossed the ocean as the bridges burned  
I still remember I still feel  
we made a bargain but you broke the deal

But the battle rages on  
even after you are gone

Its a long hard road you gotta travel  
to get where you belong  
it's a long hard road but in the end  
it can only make you strong  
make you strong

Win or lose its ll the same  
As long as you are still in the game  
you may be down but there's no doubt  
they can never really count you out

But the battle rages on  
even after you are gone

Its a long hard road you gotta travel  
to get where you belong  
it's a long hard road but in the end  
it can only make you strong  
its a long hard road  
its a long hard road  
its a long hard road you gotta travel  
to get where you belong
