

# Take Control

Raven

Up to here with promises  
No we can't take no more  
It's time to take what we can get  
And even up the score

Rising to the challenge  
Take our chances with both hands  
Take control  
Ain't gonna lose it  
Gonna take control now!

Work our fingers to the bone  
We're fighting tooth and nail  
Our backs may be against the wall  
But there's no way we can fail

We're watching and we're waiting  
In position lying low  
We're too far gone to go back now  
It's now or never, GO!

Scorched earth lies behind us  
As we assume command  
We're going up and we won't ever stop  
It's time we made a stand
