

Get back you fools, I'm gonna take this one alive  
You won't catch me, I have the will to survive

You threat, take care  
Watch out, Bomb scare  
No sleep tonight, You got to time it right

Hot sweat like rain, is driving into my eyes  
You laugh at me, There's no way you can survive

Red, Black or white, I've got to time it right  
Not much time, take it slow, Easy now, Don't let go  
Tweezers pull, Keep your cool  
No demands for shaking hands
