

## Town of Skulls

Rawhead Rexx

Rolling on a lonely highway  
Somewhere out in no man's land  
Frozen ice at night in dessert  
Burning heat a day out in the sand

Reach a town far out in a valley  
The sky is black the thunder roars  
Empty streets no friendly welcome  
Staring shapes standing in the doors

When the day turns into night  
Something evil's there  
You can't control these darkened night  
Makes you despair

Town of skulls  
Town of skulls

At moonlight people change to zombies  
Without any heart or soul  
Search for human being suck their life out  
Just to take control

When daylight turns into night  
Something evil's there  
You can't control these darkened  
Might makes you despair

Town of skulls
