

Twilight Time

Ray Stevens

Heavenly shades of night are falling
It's twilight time
Out of the mist your voice is calling
It's twilight time
Each night when purple shadows
Mark the end of day
I'm with you again at twilight time

Deepening shadows gather splendor
As day is done
Fingers of night will soon surrender
The setting sun now
I count the moments darling
'Til you're here with me
Together again at twilight time

Here in the afterglow of day
We keep our rendez-vous beneath the blue
Here in that sweet and same old way
I fall in love again as I did then - yodelaidee hoo

Deep in the dark your kiss will thrill me
Like days of old
Lighting the spark of love that fills me
With dreams untold
Each day I pray for evening just
To be with you
Together again at twilight time

Here in the afterglow of day
We keep our rendez-vous beneath the blue
Here in that sweet and same old way
I fall in love again as I did then - yodelaidee hoo

Deep in the dark your kiss will thrill me
Like days of old
Lighting the spark of love that fills me
With dreams untold
Each day I pray for evening just to be with you
Together again
Together once more
Together at last at twilight time
