

## After The Moon

Real Estate

Daydream the whole night through  
Believe me, the sun will get you too  
The distance to the next star  
Is less than the one between our hearts

I'm trying to build a bridge  
As purple light silhouettes the ridge  
Daydream the whole night through  
Trust me, the moon will abandon you

Over and over, you turn that same key  
Try to dream a dream for me  
Just let the movie play out in your head  
Till it fades to white

I know it's hard to see  
I ask you put your trust in me  
I'll see the long night through  
And I'll still be here after the moon

Over and over, you turn that same key  
Try to dream a dream for me  
Just let the movie play out in your head  
Till it fades to white
