

The Uprising

Rebellion

I've been to Sicily to fight the arabs back
In Odins name i raised my axe for the attack
Serving in Haralds ranks, for honour and for fame
And now we're back in the grand town
to raise our claim

Storm and fire
we'll provoke to those
Standing in our way, a sanguine river flows

Call on the warriors
Varangians unite
Dethrone the emperor
The gods want us to fight

Remember the good times
When we were young and full of pride
The uprising begins, the palace burns
Head for the storm with us or die

Open the dungeon gates
for Harald to break free
Let's follow him in union and for victory
Down To the chappel
where the emperor tries to hide
Michael the 5th you're dead and gone,
by Odins might
