

Breakdown

Rebelution

Look at her singing in the town
Never around, I was never around
See her dancing on the clouds
Missing out, I'm always missing out
Another mile, what a sight
Another minute of my life gone by
My time flies
Well I'll sleep 'til I arrive

Slow down, don't break down
Slow down, on the verge of a breakdown
Slow down, don't break down
Slow down, don't break down

What a life to live
What a strange little gift
Won't chase another dream but
It's not as easy as it seems
Where are we bound?
Always missing out
My time flies
Well I'll sleep 'til I arrive

Slow down, don't break down
Slow down, on the verge of a breakdown
Slow down, don't break down
Slow down, don't break down
