

# Celebrate

## Rebelution

What's up my people I'm still breathing  
Till the day I go down, celebrate we will  
The here and now, time to focus  
Stand tall and stand proud, celebrate we will  
Keep it together, live stronger  
Mentally strong to live longer, whoa  
And in the present, gonna stay up together  
Won't drown

I won't be weary still here  
I'm never worn out, out  
Yes the mindset of a winner  
I will rise up, forever stand ground

I got your back at the worst set of times  
Unification when you're just tired of trying  
We need you more than you know  
Be your best and let your true self show

You know you'll never be strange to us  
We know you got something to offer up  
You one of us, you better liven up, eh  
Whoa

You know you'll never be strange to us  
We know you got something to offer up, oh yeah  
Just be loving and kind  
And that'll keep you in line

To all my friends and all my people  
In a struggle, stand ground, celebrate we will  
The here and now, time to focus  
Stand tall and stand proud, and celebrate we will  
Keep it together, live stronger  
Mentally strong to live longer, whoa  
And in the present, gonna stay up together  
Won't drown

We won't be weary still here  
We're never worn out, out  
To be awake and innovate, that's how we'll do it  
Keeps us going round town

I got your back at the worst set of times  
And in return know that you have got mine  
We need you more than you know  
You be your best and let your true self show

You know you'll never be strange to us  
We know you got something to offer up  
You one of us, you better liven up, eh  
Whoa

You know you'll never be strange to us  
We know you got something to offer up, oh yeah  
Just be loving and kind  
And that'll keep you in line

Mentally strong to live longer
