

# Heavy as Lead

## Rebelution

I need a fix but not what you think  
There's no green  
No drink  
I need a sip of positive things  
No trips  
Real dreams  
I need a dose of nothing you roll up  
I'm on the clock this time  
And when I'm all done  
And had a war won  
You know I get real high  
So  
How do I get through  
No sweat off my back  
How do we get through this  
Life's real  
But that's what we live for

Come heavy as lead  
Won't let nobody ever take me down  
Hold steady my head when the world is crumbling all around  
No pressure, no stress  
I'm better, I'm best  
When the dark surrounds  
Come heavy as lead  
Won't let nobody ever take me down

Hold up, hold up  
Can we take a minute  
Can we post up, post up  
Gather our strength  
Can we roll up, roll up  
All the inner troubles  
Let it burn up, burn up  
Watch it rise through the air  
And let it brighten up the sky tonight  
We got a real light  
And we prepared  
And to my people, yeah, it's dark tonight  
We got a real light  
And we're not scared

How do I get through  
Yeah, no sweat off my back  
How do we get through this?  
Life's real  
But that's what we live for

Come heavy as lead  
Won't let nobody ever take me down  
Hold steady my head when the world is crumbling all around  
No pressure, no stress  
I'm better, I'm best  
When the dark surrounds  
Come heavy as lead  
Won't let nobody ever take me down

Life's real but this is what we live for

Come heavy as lead

Won't let nobody ever take me down

Hold steady my head when the world is crumbling all around

No pressure, no stress

I'm better, I'm best

When the dark surrounds

Come heavy as lead

Won't let nobody ever take me down
