

Notice Me

Rebelution

If I had you by my side,
Day and night
Years I've been waiting on you
Now I'm on the day you arrived
All aligned
Emotions always add up to
Don't wanna be lonely
Everybody's saying
I could never live that way
Don't wanna be alone
Me, Myself and I
Baby did you notice me?

Well tell me
Tell me what you're thinking
I was only hoping that you noticed
Well even just for a second
I was only hoping that you noticed me
Tell me what you're feeling
I was only hoping that you know this
Well even just for a second
I was only hoping that you noticed me

Now as the days pass by
I can't deny it
Caught up in corner of time
I gotta give you a sign
Get your attention
Can't get you off my mind
Don't wanna be lonely
Everybody's saying
I could never live that way
Don't wanna be alone
Me, Myself and I
Baby did you notice me?
