

Rise on Top

Rebelution

Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won

So we
So we get it non-stop
Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won
So we
So we get it non-stop

Listen
This is my soundtrack to fuel my hustle
This is my reign match me rise out of the rubble
It's a conscience thing
Don't want no trouble
Just trying to come up
Level never stumbled
I'm on a mission, I won't trip
We keep it moving, up, up we don't sit
We straight
We straight focused, we don't slip
You thought wrong
'Cause I'm never gonna quit
Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won

So we
So we get it non-stop
Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won
So we
So we get it non-stop

This is my soundtrack
No one move a muscle
Yeah, that's the sound that gets me going, may be subtle
A silent thing, now closer to a rustle
Now banging loud
Hustle keep the hustle
I'm on a mission, I won't trip
We keep it moving, up, up we don't sit
We straight focused, we don't slip
You
You thought wrong
'Cause I'm never gonna quit
Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won

So we
So we get it non-stop
Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won
So we
So we get it non-stop
Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won
So we
So we get it non-stop
Many fall but we rise on top
From the depths now we climb back up
You think we're done
But we're never done until it's won
So we
So we get it non-stop...
