

## Be My Friend (In Real Life)

Reckless Kelly

I grow weary, I grow jaded  
Lines are drawn, lines are faded  
You can seek me out, you can track me down  
Call my name from another town

But won't you be my friend  
Won't you be my friend in real life  
Don't check me in with you tonight  
Put down your devices and live your life  
Won't you be my friend  
Won't you be my friend in real life

Face to face, heart to heart  
Oh so close, yet so far apart  
You invite me in, to your made up world  
A million pictures worth a thousand words

But won't you be my friend  
Won't you be my friend in real life  
Don't check me in with you tonight  
Put down your devices and live your life  
Won't you be my friend  
Won't you be my friend in real life

You could call me, I could write you  
Not long ago that was all we could do  
You can look me up, you can read my page  
Channel me in a million ways

But won't you be my friend  
Won't you be my friend in real life  
Don't check me in with you tonight  
Put down your devices and live your life  
Won't you be my friend  
Won't you be my friend in real life
