

## Give It a Try

Reckless Kelly

You got me on the line, there's nothing I can do  
You [Incomprehensible] up the switch and I'm falling for that t  
oo

You got me playing your game, I'm breaking my own rules  
You got me on the line, there's nothing I can do

So you can break my heart like I know you're gonna  
You can tear me up like I know you can  
You can eat me alive like I know you wanna  
But it's better than never even having a chance

I can tell by the look in your eyes  
That you've already planned your goodbye  
It doesn't make much sense and I know it won't fly  
But we might as well give it try

I should get out while I can but that's never been my style  
I'm just a runner up when we could be running wild  
I could walk away now, seek the remedy and miles  
I should get out while I can but that's never been my style

So you can break my heart like I know you're gonna  
You can tear me up like I know you can  
You can eat me alive like I know you wanna  
But it's better than never even having a chance

I can tell by the look in your eyes  
That you've already planned your goodbye  
It doesn't make much sense and I know it won't fly  
But we might as well give it try

So you can break my heart like I know you wanna  
You can tear me up like I know you can  
You can eat me alive like I know you gonna  
What is better than never even having a chance

And I can tell by the look in your eyes  
That you've already planned your goodbye  
It doesn't make much sense and I know it won't fly  
But we might as well give it try

It doesn't make much sense and I know it won't fly  
But we might as well give it try
