

# Irish Goodbye

Reckless Kelly

Where'd we leave off  
Oh that's right  
We were standing by the gate out in the pouring rain  
When I took off we realized we might see each other again  
No one had to say it was written on our faces it was plain as day  
she never said a word she just slowly walked away

Irish Goodbye  
Irish Goodbye  
Don't say good night just turn out the light  
Irish goodbye

Here we go again another love gone wrong  
and another long ride back home  
I wonder if she knows which direction I'll be going in or that I'm even gone  
Is the candle in a window I might look for and she's hoping I will see the light  
Well there's darkness all around me now my faith is strong  
as a travel on into the night

Irish Goodbye  
Irish Goodbye  
Don't say goodnight  
just turn out the lights  
Irish goodbye

Don't say goodnight  
just turn out the lights  
Irish Goodbye
