

Moment in the Sun

Reckless Kelly

I remember the night when you were all mine
You took my hand like you'd never let it go
Our hearts start breaking but only for a matter of time
And somehow left us lonelier than being alone

I say I love you like I never love you
I say sorry even though we had our fun
You're still my number one
We walk away with no regrets
All the same, I hope you never forget
That you and I we had a good run
And once we had a moment in the sun

You say I'm nothin' but a temporary fix
But there's sadness written all over your face
He's on a mission to dismantle you brick by brick
While I'd move heaven and earth to take his place

I say I love you like I never love you
I say sorry even though we had our fun
You're still my number one
We walk away with no regrets
All the same, I hope you never forget
That you and I we had a good run
And once we had a moment in the sun

When the nights grow dark and memories decay
We'd blur the lines we crossed with ones we'd drawn
Shattered dreams and hardships fade away
'Cause true love overshadows right and wrong

I say I love you like I never love you
You say you're sorry even though we had our fun
You're still my number one
We walk away with no regrets
All the same, I hope you never forget
That you and I we had a good run
And once we had a moment in the sun

Yeah once we had a moment in the sun
At least we had a moment in the sun
