

# New Moon Over Nashville

Reckless Kelly

I had a lot of fun in Music City  
It's always been a pretty good town  
I never got much done in Music City  
Yeah, lately they've been looking for a different kind of sound

'Cause there's a new moon over Nashville tonight  
Know it's dark, the future's looking bright  
There's a new moon over Nashville, finally land upright  
And it's gonna shine, shine, shine on my lucky stars tonight

Take us to wild Music City  
Maybe hit on down to some Broadway bars  
I see them boys who play for tips in Music City  
Pretty soon they'll all be great, big country stars

'Cause there's a new moon over Nashville tonight  
Know it's dark, the future's looking bright  
There's a new moon over Nashville, finally land upright  
And it's gonna shine, shine, shine on my lucky stars tonight

Tried to make it big in Music City  
I tried my luck on Music Road  
I got shot down in Music City  
Now I'm running out of town and I got nowhere else to go

There's a new moon over Nashville tonight  
I missed my chance but I'm still hanging tight  
So you know where to find me when it finally lands upright  
And it's gonna shine, shine, shine on my lucky stars tonight

I got shot down in Music City, I got shot down  
I got shot down in Music City, I got shot down  
I got shot down in Music City
