

# The Deep

Red Fang

How can you give her a name?  
When blood and body are the same  
To take a breath for her  
To make a home for you  
We are the only ones she knew

[Chorus]  
rapture  
is calling  
to master  
rule of three

She's nameless and faceless  
Her eyes are my eyes

She hears me and feels me  
I fail her, she saves me

How can you just fade away?  
Away, without a shadow trace  
The 3 in we that has freed me to be weak  
The joy and sadness of the deep

[Chorus]

Ecstatic narcosis  
You hide it inside me  
The rapture, 3 calling  
To master the path of we

[Chorus]

She's nameless and faceless  
Her eyes are my eyes

She hears me and feels me  
I free her, she frees me

Ecstatic narcosis  
We hide it inside us

The rapture of the deep  
Three master the path of we
