

Hole in Me

Red Harvest

There is a hole in the world
There's a hole in me
Treading on Thin Ice
Between the worlds

This is the sweet thing
Come on and taste It

Cold wind sweeps
Another kind of dust
How did I get here
When the metal door shuts
The light of day
Is gone

This is the sweet thing
Come on and taste It

Splintered horizons
Composite realities
Watch me bleed
There's a hole in me
