

# Happy

Red Lorry Yellow Lorry

Have you been above the ocean  
Have you been below the sky  
You know there are a thousand notions  
And yet you ask the reason why

I'm happy, happy, happy, yes I'm happy

You always ask the same questions  
You always tell the same lies  
You're looking for a reason  
And yet I see no surprise

That I'm happy, happy, happy, I'm happy

Have you been above the ocean  
Have you been below the sky  
You know there are a thousand notions  
And yet you ask the reason why

I'm happy, happy, happy, yeah I'm happy
