

The Life I Live

Reed Deming

One day I want to fall in love
One day I want to say I do
One day I want to play a show at Madison square garden
And dedicate all my songs to you

One day I want to climb a mountain
One day I want to jump out of the sky
One day I want to see the world and meet all of its people
One day I want to laugh until I cry

But it's a scary world out there
Some say that my dreams cannot be done
But to them I say this is the life I live
And the life I live waits for no one

One day I want to start a family
One day I want to raise a child
One day I want to hold them in my arms while they are crying
One day I just wanna make them smile

One day I want to fly a spaceship
One day I want to walk the moon
One day I want to see all of the galaxies and starlights
Oh wouldn't that be a loving thing to do?

But it's a scary world out there
Some say that my dreams cannot be done
But to them I say this is the life I live
And the life I live waits for no one

And one day I will meet my end
When I've got no more to give
I hope one day the world will all be filled with hope and peace
I hope that they will live the life I lived
