

## Back In My Place

Reef

I was the one who could eat a full plate  
You picked me up and put me back in my place

Slow is the path that does lead to addiction  
Bored is my mind and it's spoke disillusion

No matter where you are  
No matter near or far  
I've seen the place I want to be  
It's one step further

Just like Marathon man  
It seems so true to me  
I've seen the place I want to be  
And I can't get there

You are my days  
And my nights are spent in chase  
You entered me  
And my life was replaced
