

## Choose to Live

Reef

This 'the face God gave me,  
And this 'the face that I will use,  
Said it will not leave me, but I wondered if I could:  
Walk around and stare it out,  
No use saying maybe when your thoughts are driving you crazy.

Choose your life,  
Choose it well.

Dream denial well I never understood it,  
If it feels good tell me, why can't I do it?  
Look myself in the eye,  
No use saying maybe when your thoughts are driving you crazy.

Choose your life,  
Choose it well.

Where's my time?  
My time is now,  
So when you find it, don't put it down.  
Let the music take you right on.  
The fire in you has a right to burn,  
So don't let anyone put it out,  
Choose to live.

Dream denial well I never understood it,  
If it feels good tell me, why can't I do it?  
Look myself in the eye,  
No use saying maybe when your thoughts are driving you crazy.

Choose your life,  
Choose it well.  
Ah, yeah.

Where's my time?  
My time is fuckin' now,  
So when you find it, don't put it down.  
Let the music take you right on.  
The fire in you has a right to burn,  
So don't let anyone put it out...

You find it, don't put it down.  
Let the music take you right on.  
The fire in you has a right to burn,  
So don't let anyone put it out,  
Choose to live.
