

## Hold On

Reef

Time - you walk the road and then leave it  
Behind and nothing's ever clearer in your  
Mind but if you go please bear me in mind

Hold on no matter what you're going  
Through just hold on and  
Celebrate the things you do  
Hold on they can take away from you  
So hold on

Where are you going without me

Sailor you've thought about your life  
And you're a sailor  
Cruising days on winds sent by your saviour  
If you could hold a day you'd elevate her

Where are you going without me

How do you think you are  
You see a place and you can get there  
Closer you crawl each day  
Beautiful time keeps tripping away
