

You know my crew all heavy, it's all ready
Let's blow this money tonight, tonight
And now my park is on slow
I'm balling in, I'm balling in, it's only turn it up
Get this money throw it up
Ehe, ehe, oho, oho, ehe, ehe, oho
You know I'm balling
Ehe, ehe, oho, oho, ehe, ehe, oho
We getting money like

Give it up, give it up clap, clap
Still got my goons a trap trapped
While I really gotta say get that
All you really gotta do is get back
I told you last year, I'ma kill them all with no fear
Came on the scene when I was 14
Told you on 2011 I'ma get that green
It's here, my time is now, the tables turned
Changed everything that I learned
If you don't get hated on you's a nobody
Evidently I'm a somebody,
Moving major, doing big things
Bling bracers, with the ... ring
Money throw it up, drinks sip it up
All I ever really wanted do is live it up

You know my crew all heavy, it's all ready
Let's blow this money tonight, tonight
And now my park is on slow
I'm balling in, I'm balling in, it's only turn it up
Get this money throw it up
Ehe, ehe, oho, oho, ehe, ehe, oho
You know I'm balling
Ehe, ehe, oho, oho, ehe, ehe, oho
We getting money like

I'm in the hardest parties, I'm always party
Show id not close to hardly
Which means no, I don't gotta show
Walk right in everywhere that I go
They know me so they show me
Love straight from the og's
Mad hate from the broke beats
... cheese
...you ain't got a thang
Ask your ... leather 3 4 bang
I set trance, you'll have fashion
Living life according to relaxing
Big rub on my dinner plate
Every young boy wanna take me on a date
Don't know g7 ... homie you's late
We make cake and it feels real great

Bringing Reema Major out you know she gonna steal the show
Cherry tree interscope, who so universal
Hop upon the stage and shut it down with no rehearsal
Star time, star grind, time to feed the star shine
Beating all them cases up, put away the life of crime
Like infinite I'm getting mine, g7 incorporated
Pour all the any out for all my thugs that never made it
Lifting glasses in the air, celebrate is all yeah
Hustle blood sweat ... glory's here
Haters will disintegrate, busy moving real estate
Busy stacking up this cake, came from the hood you can't relate
My crew roll heavy, you ...
