

## In This Life

Reema Major

Front is the opposite of back, white is the opposite of black  
I be killing every track cause I'm the opposite of wack  
In fact, I lack nothing less than the fake shit  
They creating numerous rumors tryin' create shit  
Same false facts that really ain't me  
Why these critics always tryna tarnish my identity  
In this life a lawyer is a liar  
The new generations is inspired by the errors they  
For example piercing on the face  
Came from the mesijah in the motherland, understand  
Nothing's new under the sun  
Nowadays, everybody got a gun but not every gun got a body  
Yes we're identified by names, that don't mean using somebody  
And the media can turn a goodie girl into a naughty one  
This life is a bitch in itself  
My concern is my family's health and their wealth  
Cmon

I want everything in this life X2

Truth be told I'm as bold as I wanna be

Blunted in the backward  
Far from a wannabe  
Imma take it all like it's sittin right in front of me  
No set of eyes has ever seen what I wanna see  
My life obides by the laws of the book  
I been through situations that will make a grown man shook, grown man  
Hide  
Type to make a grown man cry  
If you don't come through and you never try, don't you ask why  
Work brings results  
Lazy brings nada  
The lady sold her soul just cause she wanted some prada  
Then she gave up her hoochie just cause she wanted Gucci  
Nowadays we praising names like bad bitch and mama hoochie  
That's so wrong, we prolong on what's right  
And if it's going down, shots fired on sight  
That's life the one bitch you can't leash  
I'm reema m, the one kid you can't teach
