

I'll Choose My Side

Refused

Can't you hear it?
Shout out!
I love to care
Justified!
Just, just depends
I will be satisfied and try
I won't go to hell
I won't take no punishment
Is this religion or death?

This is the future
Let's go, grab a friend
No doubt about it
We made it something else
After today, I will struggle more for consequence
I...
I would send
I would send them in

I'll choose my side
They're betrayal
There is no solution
Got to wear it
Gone away
They'll betray
Besides it's a business
Kill so you die quick

Everybody's coming here
For all, for the system
None of them killed
All in all see it fast
Killing them, for remedial profit
All business done by night
Violence can be found

I'll choose my side
They're betrayal
There is no solution
Got to wear it
Gone away
They'll betray
Besides it's a business
Kill so you die quick

We're the victims
You've been victimized
Educate, retaliate and force them into lake
Yeah!
