

Perception

Refused

Pacifying, uneducating - what did you learn on TV today
Network and media controlling the masses
Feeding us lies made up to be true
By abuse use
Reality can be twisted into the reality that fits us today
Cause we never doubt the genuineness of the things they told us
We follow their rules as hypnotized fools
No questions asked but the answers are all given
And who sets the rule - who sets the rules
It serves us ideals fashion and prejudice
What better way to learn about life
Glamorizing death but hiding the real facts
Just shows the truth and it's worth for us to see through their
eyes
But we can see so much more than their selective subjective flow
of information
We never questioned
- the integrity of their faces
- the intention behind
- the stories told to us
Cause we just follow blind
