genocide on genocide - destroyed knowledge crushed pride lost culture to civilization - reduced abused beyond dignity contemplation exploitation - ring the bell of information blocked the truth convincing, controlling - held us down unthin king, unknowing

oppressed so many for so long - we've ignored the facts, and mo ved along

we gotta pump the brakes

wasting resources, face some facts and detect the causes - caus e our progression equals

destruction, people getting killed by government corruption cause making most of the land, that's the plan, you gotta under stand

that 50 years down the line, there wont be no time, the time is now.

drained so much for so long - we've ignored the costs and moved along

time to pump the brakes

gotta pump the brakes, pump pump the brakes...
