

Don't Let Go

Regina Belle

Boy whatcha feelin' is it me
Cause I'm in heaven since you kissed me
Well, if you touch me again, I'll know it means
For me to give you my hand so you can hold me

Hold me in your arms and don't let go
I never had nobody to love me like this
Please don't let go
Let's relax and take it nice and slow
The way you love me drive me crazy
Please don't let go

Ooh and how my girlfriends envy me (they envy me)
They mean well but they're all so lonely (lonely)
I try to hide it but it's all on my face
Your love's inside me and dwells in this place

Hold me in your arms and don't let go (don't let go)
I never had nobody to love me like this
Please don't let go (please don't let go)
Let's relax and take it nice and slow (nice and slow)
The way you love me drive me crazy
Please don't let go

Ooh it feels good don't let go (don't let go)
Hold me in your arms baby (hold me in your arms)
Make me feel special (ah baby)
I adore and love you so (love you so)
Please don't ever, ever let me go (ever let me go)

Don't, don't let me go (don't let me go)
Don't, please don't let me go (don't let me go)
Don't, don't let me go (no no)
Don't, please don't let me go
