

# One Love

Regina Belle

I believe all over the world, one love  
I believe all over the world, one love  
I believe all over the world, one love  
Let it be, let it be  
I believe in one love

We're on a carousel of great design  
And all we have to do is treat it kind  
All creation is for us to learn  
To be together as one

How we get there is no mystery  
The power lives inside of you and me  
It's the miracle we're looking for  
Let us upon the door

I believe all over the world, one love  
I believe all over the world, one love  
I believe all over the world, one love  
Let it be, let it be  
I believe in one love

If I could make one wish upon a star  
I would wish for peace in all our hearts  
So much beauty all around to see  
And it's calling humanity

I believe all over the world, one love  
I believe all over the world, one love  
I believe all over the world, one love  
Let it be, let it be  
I believe in one love

Ad when the children go to sleep at night  
May the memory of their day be bright

And the hope and dreams (that's) in their eyes  
May it all be realized

I believe all over the world, one love  
I believe all over the world, one love  
I believe all over the world, one love  
Let it be, let it be  
I believe in one love
