

Forever

Regine Velasquez

We've come so far
To leave it all behind
I wonder why

Why did you go away?
And left me all alone
No words can say
My love, please stay.

You and I, we have moments left to share

You and I, we can make it anywhere

You and I, we belong in each other's arms
There can be no other love
Now, I know that we can have it all forever

Each night I pray
That we can be together once again

Forever more
We'll stay and love this way
No matter what they say

Until the end.

You and I, we have moments left to share
(moments left to share)

You and I, we can make it anywhere
(make it anywhere)

You and I, we belong in each other's arms
There can be no other love
Now, I know that we can have it all forever

You and I, we have moments left to share
(we have moments left to share)

You and I, we can make it anywhere
(make it anywhere)

You and I, we belong in each other's arms
There can be no other love

Now, I know that we can have it all forever
Now, I know that we can have it all forever
Now I know that we can have it all forever
