

Know It

Regine Velasquez

Do you belong to me all the way
I never thought I'd have to ask someday
I don't really know what you mean to say
I'm so afraid to just let go
Though I'd believe if you let me know
No matter how much you mean to me
I couldn't just take that risk with you right now
But whatever I do, can't resist your love
It's all up to you
Before we can start something new

(Know it)
I wanna give it a chance
First I must know you love me
(Know it)
I've got to see you again
(Know it)
Oh, how I wish you were sure
'Cause I wanna start believing
Know what you're feeling
So I can let go
No matter how much you mean to me
I couldn't just take that risk with you right now
Stayin' away gets harder and harder
As I go on alone
The more I want you here with me

(Know it)
(I wanna give it a chance)
(First I must know you love me)
(Know it)
I've got to see you again
(Know it)
Oh how I wish you were sure
'Cause I wanna start believing
(Know what you're feeling)
So I can let
I can let go ...
