

# Never Ever Say Goodbye

Regine Velasquez

Night after night we sleep together  
Sharing lovely moments that spell forever  
Day after day our love gets stronger  
Growing every minute that we get closer

If we ever have to say goodbye  
And go our own separate ways  
I wouldn't know how to get by on my own  
After all the love and passion you have shown

I'll never say goodbye  
No matter how they try  
To show we love won't last  
If we're prisoners caught in our past

Don't let your tears run dry  
No need for you to cry  
I promise I will stay  
I'm with you all the way

In time they'll soon forget  
That you and I once met  
As long as deep inside  
I know its love not pride  
Then I will never say ever say good-bye

I'll never say goodbye  
There are no reasons why  
Our souls are so in twined  
There is us not you and I

Our friends will soon regret  
Regretting we once met  
Because we'll show them all  
With love we can't walked tall  
And we will never say ever say good-bye
