

Well you know i got the get go  
Comin up one gouroujina 3.30  
Fast it's like i got a cracker up my ass  
Crass educated middle middle class  
Half caste one of a critical mass  
Broke the old mold smashed the last cast  
If you ask me don't believe the hype of the past  
Cos political ties are never built to last  
Seems like a motherfucker want a capitalize  
Parasites on the rise with greed in their eyes  
I criticise only when you fuckers despise  
Lives take a dive when your dirty profits are high  
Good grief could we see some debt relief  
Or can you stand to watch another fucker spending belief  
Fuck sake all you do is take n take n take  
Maybe it's time to cut a break  
I got the pantene sheen with with the colgate gleam  
I mean shit.. they told me i was worth it.. legit that's all i need  
I'm free to rot my teeth with coca co i utilise  
The phenylalanic flow to tap the toe and rock it  
Live i survive by the means i deploy  
Laugh in the face of the void.. prozac.. enjoy  
We're on top with the same sweatshop enterprise  
We're big macking keep the fries on the side  
'cause i'm like n.i.k.e get the fat free  
One hell of a pimp almost get it for free  
Wrappin job skills up with the childcare too  
If you're poor and underage we'll come and see you  
Cos i'm logo largin crash card chargin  
A hard entourage for the cultural barge  
Mmm.. yeah that's the sound  
Roll the red rugs out 'cause we're coming round  
You can listen to the mithanthric shit i be given  
But i can't be guaranteein take it or leave it  
Call me a hyppocrit for this i know i can't be forgiven  
By product of the ego.. nomic life i be livin  
I'd be fucking with you if i said i knew what to do  
But before you get to swallow just remember to chew  
And if it tastes like shit then spit it out.. out out out  
Murdoctered that's beyond a doubt  
Cos none of what you hear and even less what you're seein  
Comes even close to any version of the truth worth believing  
It's just a bland scam stamped with the master brand  
Lambs to the slaughter  
Only cos you do what you oughta  
But if your plan is to take what you can  
Watch where you stand  
Hand bights the clan - fear fights on demand  
And if you understand evil could be good mistook  
You gotta get the fuck up and take a look...
