

# Somewhere In Time

ReinXeed

"Take me back, take me back, Doctor!  
Take me back, take me back Back in Time!"

What's the time? I'm on my own when the rain falls down  
Speeding light grows in my sight and I look ahead  
My friend is gone and I wonder why, is it destiny?  
I changed my way of life in the oldest of our land  
When I have lived for many days, don't follow me!

Souring high, your machine can fly

Flash of light and Fire  
Steaming from the tires  
There's no limit in the sky

I must save my friend from the past  
Go against the time, make it fast  
See through our future and history  
Somewhere in Time I will find where you are

There's no returning from where I'll go now  
History's changing again  
"Time's not against you"  
Old ancient stories revealed and changes  
Here in the Western Land

I have found my one true love, I'm tired of rejects  
She's one in a million, one in a googolplex  
I'm sorry friend, you don't belong where murder's not a crime  
We must back to -55, now it's our time!  
Now you fly in my machine so high

Flash of light and Fire  
Steaming from the tires  
There's no limit in the sky

I must save my friend from the past  
Go against the time, make it fast  
See through our future and history  
Somewhere in Time I will find where you are

There's no returning from where I'll go now  
History's changing again  
"Time's not against you"  
Old ancient stories revealed and changes  
Here in the Western Land

Fly away forever, time is now or never  
I believe we'll meet again

Flash of light and Fire  
Steaming from the tires  
There's no limit in the sky

I must save my friend from the past  
Go against the time, make it fast  
But where is your ocean of dreams

When you can't see your own fantasy

There's no returning from where I'll go now

History's changing again

"Time's not against you"

Old ancient stories revealed and changes

Here in the Western Land
